8	[REDACTED] had originally asked to be taken off of the list because he worked mainly at DeSoto / Vanowen and didn't think he had anything of value to say in the interviews. He was an engineering planner for the SRE assigned to a project engineer. His career began in 7/1956 and he retired 12/2007. He has changed his mind and now would like to participate in the interviews.	WL	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	Kim Cower and Wendy Lowe	Approved	No		1					A	2	1956	1960	4		Atomic Internal email							Area start to project engineer or the SRE experiment						Area IV	SRE	Handled chemicals and/or cleaning materials	Handled radioactive materials or waste	Wore a film badge or a dosimetry badge			1								[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	Did not work at SRE - but was assigned to support the work at SRE and has knowledge of the facility and operations	OK	OK	OK																																														
31	Returned call. Updated address and phone and email. Worked 1959-1960 as an electronic technician. Took samples of all materials after the SRE incident to measure radiation levels. Was altered denied on reimbursement claim.	WL	[REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]	Kim Cower and Wendy Lowe	Approved	Yes		1					A	2	1959	1960	1		Atomic Internal email							Electronic technician, measured radioactivity on samples after tests						Area IV	SRE and SNAP	Handled chemicals and/or cleaning materials	Handled radioactive materials or waste	Wore a film badge or a dosimetry badge			1			Concern about environmental contamination		Mornings are better	FX-6 [REDACTED]	[REDACTED]	[REDACTED]	[REDACTED]		OK	OK	OK

3		Name	Address	Phone #	E-mail Address	
4	1	FX-6 Personal				Stated he never worked at SSFL - he worked at Canoga Park facility
5	9	FX-6 Personal				Building 201 was covered with asbestos. He filed for compensation after losing his prostate to cancer, but was turned down. It is a waste of time to help you.
6	10	FX-6 Personal Privacy				
7	15	FX-6				Doesn't remember indicating that she'd like to be interviewed. Just wants to stay on the mailing list to receive updates and information. She doesn't feel that she has any pertinent information to add. Does not want to be interviewed.
8	16	FX-6				3/30 Spoke with Helen. Is no longer interested in doing an Interview.
9	19	FX-6 Personal				She never worked on the hill and doesn't think she knows anything that would be helpful to us.
10	21	FX-6				Sent Letter. NOT INTERESTED IN INTERVIEWING.
11	25	FX-6 Personal				Stated that she did not work at SSFL - she worked at Canoga Park facility
12	28	FX-6 Personal				
13	33	FX-6 Personal				Will not interview. He didn't work up there - his father did. His father has passed away. He suggested searching the records of the SSFL Fire Department to learn locations of where hazmat teams went out to.
14	39	FX-6 Personal				Her father worked at SSFL. He died of bladder cancer on 2.2.07. Would like to be interviewed. Works for Rocketdyne at another location.
15	41	FX-6 Personal				Peggy spoke with him, vry poor english
16	43	FX-6				3/26 No longer interested in doing an interview.
17	46	FX-6				Father and mother worked for Rocketdyne - both have passed. FX-, the son, attended the SRE workshop in Aug 2009. He told me that he remembers his father mentioning the way that the rocket propellants were drained into unlined pits - the burn pits and how carelessly or casually these kinds of things were handled when his father worked at SSFL. He also mentioned that it was his father's exposure to industrial solvents (sp?) that led to his immune system failure (his father worked for another company that used industrial solvents after leaving Rocketdyne). The son also mentioned that in 1964, he and his H.S. classmates were taken on a field trip to the SRE area - a month before it was shut down.
18	49	FX-6 Personal				Not interested in being interviewed. I spoke to his wife (?) and she was quite adamant that we not call to ask for the interview. He also no longer wants to be on the mailing list.
19	50	FX-6 Personal				No longer interested in doing an Interview.
20	51	FX-6	DELETED		DELETED	
21	54	FX-6 Personal				Does not want to be interviewed. Worked off site for most of his employment and is dealing with personal issues that make it difficult for him to devote time to other things.
22	62	FX-6 Personal				Don't think could add anything to what we already know
23	65	FX-6 Personal				Don't think could add anything to what we already know

234	FX-6					His wife said he passed away.
87						
237	FX-6					
88						
239	FX-6 Personal					Not interested in being interviewed
89						
247	FX-6					In 1983, he got got sick and felt pain all over his body. Suspectd that he was exposed to radiation or chemical poisoning at work. Had to quit his job. Moved to FX-6 so his son could help his wife care for him. He was 1 year and 1 month short of being eligible to retire. His pension was greatly reduced. The doctor at Rocketdyne put him on medication. At that time there was never any indication that there was any chemical contamination. He has seen newspaper articles about health effects.
90						
248	FX-6 Personal				#REF!	In the business office, doesn't think can help
91						
253	FX-6				#REF!	He is very hard of hearing and doesn't remember very much. Doesn't think he knows anything that we don't already know. They will call WL if they decide he would like to be interviewed
92						
259	FX-6 Personal					Passed away
93						
261	FX-6					Did not work at SSFL. All he knows is rumors
94						
263	FX-6					thinks he does not have anything to add.
95						
271	FX-6					Worked at DeSoto - doesn't he has anything that would be helpful

2	Question 7	Question 8	Question 9	Screening caller notes
3	Notes	Object to telephone interview?	Preferences and/or conflicts as stated	Comments
4			Can be reached most days and evenings at	
5			Afternoons better	Friendly and helpful.
6				
7			Mon,or Tues 7:30 A:M	3/30. Spoke with Mr. <b>FX-6</b> and was able to ask preliminary questions. Health is fine.
8	Had thyroid problems. Doctor asked her if she had ever been "exposed to things". She told him/her that she didn't think so.		Available most of the time	She doesn't remember much. She worked in the "fishbowl" (computer room) and kept records of the firing of the engines. She didn't enter the test site areas, however. She mentioned several times that she probably wouldn't be a good candidate for the interview.
9		Prefer in person	Monday and Wednesday are busy, other days are	Friendly and eager to help
10			Morning are better, Monday or Tuesdays	
11		Would prefer face to face interview, but	Splits time between <b>FX-6 Personal</b>	
12			AM	Doesn't feel like he has much to share - He didn't work on the "technical side of things". Didn't know about the accident; learned about it much later.
13	Worked at Coca test stand where he saw a lot of carbon tetrachloride used to clean test engines and allowed to run directly on ground. Wonders if it has anything to do with his chronic lymphocytic leukemia (CLL)		No one time or day is better than another

2	Question 7	Question 8	Question 9	Screening caller notes
3	Notes	Object to telephone interview?	Preferences and/or conflicts as stated	Comments
14			Monday-Friday after 10:00 AM.	3/25. Did not want to answer preliminary questions, but answered all questions. He hung up very abruptly. Not sure whether Mr. FX-6 will do an interview.
15		Yes	Late morning	Age 87. Health status is not very good. Hard of hearing and has some difficulty remembering things.
16		Would prefer in person	Just keep trying	Pack rat - saved all his time cards, for example. There was a lake up there for testing the Water Jets. He can really talk - allow enough time!
17			Monday - Friday late morning or afternoon.	Before interviewing Mr. FX-, I spoke with wife who informed me that her husband suffers from Parkinsons Disease.
18			Call Monday or Thursday in the	FX-6 stated that he was exposed to Sodium Materials.
19			None	Worked in B-1 test area, CTL-II and CTL-V
20	Worked on 3 programs - feels that the information		8AM-8PM	Health Status, Memory, Hearing, Attitude: Excellent
21				
22			Call office number during day to schedule interview	He thinks it's naïve that "people think contamination is limited to Area IV - he doesn't think sealing buildings with duct tape would keep radiation from escaping from a building. Re: question 6 he has no preference
23		Would prefer over the phone	Call around 1:30 to 2:00 pm	RE: Question 6 has no preference. Worked at Coca, used methyl ethyl ketone (MEK) and acetone mainly as cleaners

	AH	AI	AJ	AK

2	Question 7	Question 8	Question 9	Screening caller notes
3	Notes	Object to telephone interview?	Preferences and/or conflicts as stated	Comments
24			Will be in Europe beginning May 9 for 16 days (May 25) so don't call then!	92 years old! Couldn't remember the area of SSFL he worked at but explained how rocket fuels and oxidizers worked. He worked on the F-1 rocket engine, 2nd/3rd stage of J-2 hydrogen engine, and a Navy airplane (FJ-4) used as a test bed for rocket assist using 97% H2O2 and jet fuel. Never got out of the test area because of Lockheed's F-111.
25	exotic fuels		call during the day	Re: question 6, he has no preference. Worked in "equipment lab" (IEL?) and TCA - test chamber assembly. Worked with pumps, compressors, etc.
26			Call only on Monday, Wednesday, or Friday in the morning.	Worked at SSFL while offices at Canoga Park were being built. Worked in a building, could not remember where it was located but was near one of the test stands - maybe one of the labs nearby. Was strictly white collar. He doesn't think he ever wore a dosimetry or film badge - but may have been given one.
27			Mon, Tues, and Thurs are better	
28			retired	Friendly and helpful. Did not work in Area IV
29			retired	Friendly and helpful
30				So glad to talk

	AH	AI	AJ	AK

2	Question 7	Question 8	Question 9	Screening caller notes
3	Notes	Object to telephone interview?	Preferences and/or conflicts as stated	Comments
31	I worked on cleanup in an area up on the hill involving cylinders, mobile analytical lab		retired, come and go, some volunteer work on Thursday morning	Very pleasant
32			After 4 pm any day or Tues/Thurs mornings	
33			Monday-Friday 10:00 AM	Worked 1 year at Delta Test Stand @ SSFL
34				Most of time was at Canoga & DeSoto
35				At Canoga 1983-90
